EDUCATION

2021 - 2026

JIMMA UNIVERSITY

- Software engneering

SOFT SKILLS

- Creative Problem Solving
- Entrepreneurship
- Teamwork leader
- Effective Communication
- Critical Thinking

LANGUAGES

- Amharic (Native)
- English (intermidate)

PROFESSIONAL SUMMARY

Passionate Software Engineer with hands-on experience in Full-Stack Web Development, UI/UX and DevOps. Skilled in building scalable, user-friendly applications using React, Next.js, Node.js, and modern technologies. Experienced in developing solutions ranging from AI-powered platforms to enterprise systems, leading teams, and collaborating across diverse groups.
Dedicated to writing clean, maintainable code, designing robust architectures, and delivering smooth, responsive user experiences. Certified in Huawei programs and multiple technical areas, I am driven by curiosity and impact, constantly seeking new challenges to create software that solves real-world problems and empowers users.

EDUCATION

B.Sc. in Software Engineering 2021 - 2026

Jimma University, Ethiopia

- Courses: Requirement Engineering, Software Architecture, Database Design, Web & Backend Development
- Skills Acquired: System architecture, full-stack development, database management, team leadership, UI/UX design
- Final Year Project: Edutwin – Educational 3D Platform with AI & Mobile App
- Led the team and managed project workflow.
- Designed immersive 2D and 3D educational interfaces in Canva for engaging UI/UX.

2025-2025

INSA summer Camp Talent

DevOps 3 Months

- Gained hands-on DevOps experience with automated deployments and CI/CD pipelines.
- Applied DevSecOps practices for secure backend workflows.
- Learned network monitoring and system reliability techniques.
- Skills: DevOps | CI/CD | DevSecOps | Automation | Network Monitoring

Nigerian Women Techsters (WTF) - DevOps Fellow

DevOps 6 months

- Gained hands-on experience across the full DevOps lifecycle: CI/CD automation, Docker, Kubernetes, and cloud deployment.
- Applied global engineering best practices while enhancing collaboration and communication skills.
- Skills Acquired: CI/CD, Docker, Kubernetes, Cloud Deployment, Jenkins, Git-Lab, Terraform, Ansible, Teamwork, Communication, Soft Skills

Technical Skills

Frontend Development

- React
- Next.js
- TypeScript
- HTML5 & CSS3
- Tailwind CSS
- Ant Design
- Material UI
- ShadCN UI Components
- Framer Motion
- Responsive Web Design
- Web Accessibility
- Figma (UI/UX Design)

Backend & Systems

- Node.js
- Express.js
- NestJS
- RESTful API Development
- MongoDB
- PostgreSQL
- Prisma ORM
- Swagger / OpenAPI
- Supabase

DevOps & Cloud

- Docker
- Kubernetes
- CI/CD Pipelines
- Linux
- Nginx
- AWS Cloud Services
- Git & GitHub

WORK EXPERIENCE

INSA (Information Network Security Administration) 2024 - 2025

Full-Stack Developer Intern — 5 Months

- Developed a secure, scalable MERN stack inventory management system, integrated REST APIs, optimized backend performance, and applied OWASP Top 10 security principles.
- Technologies: Node.js | Express | MongoDB | React | REST APIs | OWASP Security Practices

Debo Engineering 2025 - 2026

Frontend Developer — 5 Months

- Built responsive React & TypeScript UIs for large-scale ERP and import/export websites.
- Implemented Tailwind CSS and Ant Design for professional layouts and icons.
- Collaborated with backend teams to integrate REST APIs and optimize performance across devices.

INSA summer Camp Talent 2025-2025

DevOps 3 Months

- Gained hands-on DevOps experience with automated deployments and CI/CD pipelines.
- Applied DevSecOps practices for secure backend workflows.
- Learned network monitoring and system reliability techniques.
- Skills: DevOps | CI/CD | DevSecOps | Automation | Network Monitoring

Safaricom Talent Cloud Capstone Project

ProLog: Product & Logistics Management System
Role: Team Lead remote for 6 weeks

- Led a multi-disciplinary team to design and deliver ProLog, a scalable product and logistics management platform.
- Directed development of core features, including inventory tracking, order management, and real-time reporting, improving operational efficiency.
- Oversaw implementation using React, Node.js, and MongoDB, ensuring a robust and user-friendly system.

ACHIEVEMENTS & RECOGINTION

- Completed 18+ professional certifications in Cloud Computing, Artificial Intelligence, DevOps, and Software Development, including **HCIP Big Data Developer V2.0, HCIA Security V4.0, and HCIA Storage V5.0.**
- Top 3 Winner (Cardano Track) at the **African Blockchain Championship 2025** for developing a blockchain-based land registry platform.
- 3rd Place Recognition at the **Women Techmakers Addis Hackathon - DX** Valley for building the SafetyNet mobile application, focused on social impact.
- Participated in the **SheCodes Hackathon**, contributing to projects promoting women's empowerment in technology.
- Volunteered during **Ethiopian Blockchain Week**, supporting event operations, networking activities, and community engagement with developers and blockchain professionals.
- Recognized as Student of the **Week at Women Techmakers Addis** for outstanding contribution and creativity in UI/UX design during community learning activities.
