

TSEHAYNESH BIRUH

SOFTWARE ENGINEER

PROFESSIONAL SUMMARY

Results-driven Front-End Engineer specializing in building scalable, high-performance web applications using React, Next.js, and Angular. Proficient in TypeScript, Tailwind CSS, and state management (Zustand, Redux). Proven track record of optimizing web performance, configuring CI/CD pipelines (Docker, GitHub Actions), and delivering award-winning solutions in high-pressure hackathons. Detail-oriented developer committed to clean code, responsive UI design, and cross-functional team leadership.

EDUCATION

B.Sc. in Software Engineering 2021 - 2026
Jimma University, Ethiopia for 5 years
May 12 2021 - 2026 June 24

INSA 3-Month Front-End Development & DevOps Summer Camp 2024 - 2025

Engineered a scalable Patient Tracker web application using React, Next.js, and Angular. Architected interactive analytical dashboards and reusable UI systems using TypeScript, Zustand, ShadCN, Radix UI, and fluid animations (Framer Motion, GSAP). Implemented DevOps best practices by containerizing the platform with Docker and configuring automated CI/CD pipelines via GitHub Actions for rapid application deployment.

WORK EXPERIENCE

Full-Stack & DevOps Intern | INSA (Information Network Security Administration) 2024 - 2025

- Engineered and deployed a responsive inventory tracking system using React, Next.js, Node.js, and MongoDB.
- Integrated robust RESTful APIs and optimized frontend rendering speeds using Tailwind CSS and reusable components.

CONTACT

- +251-928-505-904

SOFT SKILLS

- Team Leadership
- Creative Problem Solving
- Effective Communication
- Critical Thinking
- Entrepreneurship

LANGUAGES

- Amharic (Native)
- English (intermidate)

Technical Skills

- React (Hooks, Context), Next.js, Angular
- Languages & Markup: TypeScript, JavaScript (ES6+), HTML5, CSS3
- Styling & UI Components: Tailwind CSS, SCSS, ShadCN, Radix UI, Material UI, Bootstrap
- Animations & Effects: Framer Motion, GSAP, Lottie
- DevOps & Deployment: Docker, GitHub Actions, CI/CD
- Best Practices: Responsive UI, Accessible Design, Reusable Components, Performance Optimization

- Containerized the application with Docker and established automated CI/CD pipelines via GitHub Actions.
- Tech Stack: React, Next.js, TypeScript, Node.js, MongoDB, REST APIs, Tailwind CSS, Docker, GitHub Actions, CI/CD.

Front-End Engineer | Debo Engineering

2025

- UI Engineering: Built and deployed high-performance web applications using React, TypeScript, Tailwind CSS, Ant Design, and shadcn/ui.
- Component Design: Developed complex interactive UI components, dynamic modals, and responsive popups with strict design precision.
- API Integration: Collaborated with backend teams to integrate robust RESTful APIs, leveraging Swagger for comprehensive endpoint testing.
- Code Optimization: Enhanced application performance, accessibility standards, and clean code quality across cross-functional team sprints.
- Tech Stack: React, TypeScript, Tailwind CSS, Ant Design, shadcn/ui, RESTful APIs, Swagger, Git.

Front-End Developer | EduTwin (Final Year Project)

- Built a React/Next.js educational platform featuring dynamic, role-based dashboards.
- Developed responsive, reusable UI components using TypeScript, Tailwind CSS, and ShadCN.
- Integrated REST APIs and managed global state using Zustand and Context API.
- Optimized web performance and accessibility to ensure a seamless user experience.
- Tech Stack: React, Next.js, TypeScript, Tailwind CSS, ShadCN, Zustand, Context API, REST APIs.

Team Lead & Full-Stack Intern (Remote, 6 Weeks) | Safaricom Talent Cloud Capstone Project

- Led a cross-functional team building ProLog, a scalable full-stack logistics platform.
- Directed development of inventory tracking, order management, and real-time reporting.
- Engineered robust frontend and backend infrastructure using React, Node.js, and MongoDB.
- Collaborated remotely to optimize cross-team deployment workflows and operational efficiency.
- Tech Stack: React, Node.js, MongoDB, Express, Git, Remote Team Leadership.

ACHIEVEMENTS & RECOGNITION

- Completed 9+ professional certifications across Cloud Computing, AI, DevOps, and Software Engineering.
- Key Credentials: HCIP Big Data Developer V2.0, HCIA Security V4.0, and HCIA Storage V5.0.
- Top 3 Winner (Cardano Track) at the **African Blockchain Championship 2025** for developing a blockchain-based land registry platform.
- 3rd Place Recognition at the **Women Techmakers Addis Hackathon – DX Valley** for building the SafetyNet mobile application, focused on social impact.
- Participated in the **SheCodes Hackathon**, contributing to projects promoting women's empowerment in technology.
- **Volunteered** during **Ethiopian Blockchain Week**, supporting event operations, networking activities, and community engagement with developers and blockchain professionals.
