EDUCATION

- May 12 2021 - 2026 June 24
- JIMMA UNIVERSITY
- Software engneering

SOFT SKILLS

- Creative Problem Solving
- Entrepreneurship
- Teamwork leader
- Effective Communication
- Critical Thinking

LANGUAGES

- Amharic (Native)
- English (intermidate)

PROFESSIONAL SUMMARY

Passionate Software Engineer specializing in Full-Stack Development, Cloud, and DevOps, with strong expertise in building scalable, cloud-native applications using React, Next.js, Node.js, Kubernetes, and CI/CD pipelines. Experienced in developing AI-driven platforms, enterprise systems, and collaborating within cross-functional teams. Holder of 19 certifications, including 4 Huawei certifications: HCIA Storage, HCIA Security, HCCDA Cloud-Native, and HCIP Big Data Development.

Driven by a deep passion for Cloud-Native and DevOps practices, I focus on building resilient, efficient systems through automation, CI/CD, and Kubernetes. With an entrepreneurial mindset, I continuously innovate to deliver scalable, maintainable solutions that create real-world impact and drive business growth.

EDUCATION

B.Sc. in Software Engineering 2021 - 2026

Jimma University, Ethiopia

- Courses: Requirement Engineering, Software Architecture, Database Design, Web & Backend Development
- Skills Acquired: System architecture, full-stack development, database management, team leadership, UI/UX design
- Final Year Project: Edutwin – Educational 3D Platform with AI & Mobile App
- Led the team and managed project workflow.
- Designed immersive 2D and 3D educational interfaces in Canva for engaging UI/UX.

2025-2025

INSA summer Camp Talent

DevOps 3 Months

- Gained hands-on DevOps experience with automated deployments and CI/CD pipelines.
- Applied DevSecOps practices for secure backend workflows.
- Learned network monitoring and system reliability techniques.
- Skills: DevOps | CI/CD | DevSecOps | Automation | Network Monitoring

Nigerian Women Techsters (WTF) - DevOps Fellow

DevOps 6 months

- Gained hands-on experience across the full DevOps lifecycle: CI/CD automation, Docker, Kubernetes, and cloud deployment.
- Applied global engineering best practices while enhancing collaboration and communication skills.
- Skills Acquired: CI/CD, Docker, Kubernetes, Cloud Deployment, Jenkins, Git-Lab, Terraform, Ansible, Teamwork, Communication, Soft Skills

Technical Skills

Frontend Development

- React
- Next.js
- TypeScript
- HTML5 & CSS3
- Tailwind CSS
- Ant Design
- Material UI
- ShadCN UI Components
- Framer Motion
- Responsive Web Design
- Web Accessibility
- Figma (UI/UX Design)

Backend & Systems

- Node.js
- Express.js
- NestJS
- RESTful API Development
- MongoDB
- PostgreSQL
- Prisma ORM
- Swagger / OpenAPI
- Supabase

DevOps & Cloud

- Docker
- Kubernetes
- CI/CD Pipelines
- Linux
- Nginx
- AWS Cloud Services
- Git & GitHub
- CI/CD (Jenkins / GH Actions)
- Terraform & Ansible
- Helm & Kubeflow
- Nginx & Cloud Provisioning

WORK EXPERIENCE

INSA (Information Network Security Administration) 2024 - 2025

Full-Stack Developer Intern — 5 Months

- Developed a secure, scalable MERN stack inventory management system, integrated REST APIs, optimized backend performance, and applied OWASP Top 10 security principles.
- Technologies: Node.js | Express | MongoDB | React | REST APIs | OWASP Security Practices

Debo Engineering 2025 - 2026

Frontend Developer — 5 Months

- Built responsive React & TypeScript UIs for large-scale ERP and import/export websites.
- Implemented Tailwind CSS and Ant Design for professional layouts and icons.
- Collaborated with backend teams to integrate REST APIs and optimize performance across devices.

INSA summer Camp Talent 2025-2025

DevOps 3 Months

- Gained hands-on DevOps experience with automated deployments and CI/CD pipelines.
- Applied DevSecOps practices for secure backend workflows.
- Learned network monitoring and system reliability techniques.
- Skills: DevOps | CI/CD | DevSecOps | Automation | Network Monitoring

Safaricom Talent Cloud Capstone Project

ProLog: Product & Logistics Management System
Role: Team Lead remote for 6 weeks Fullstack Development

- Led a multi-disciplinary team to design and deliver ProLog, a scalable product and logistics management platform.
- Directed development of core features, including inventory tracking, order management, and real-time reporting, improving operational efficiency.
- Oversaw implementation using React, Node.js, and MongoDB, ensuring a robust and user-friendly system.

ACHIEVEMENTS & RECOGINTION

- Completed 18+ professional certifications in Cloud Computing, Artificial Intelligence, DevOps, and Software Development, including **HCIP Big Data Developer V2.0, HCIA Security V4.0, and HCIA Storage V5.0.**

- Top 3 Winner (Cardano Track) at the **African Blockchain Championship 2025** for developing a blockchain-based land registry platform.

- 3rd Place Recognition at the **Women Techmakers Addis Hackathon - DX** Valley for building the SafetyNet mobile application, focused on social impact.

- Participated in the **SheCodes Hackathon**, contributing to projects promoting women's empowerment in technology.

- Volunteered during **Ethiopian Blockchain Week**, supporting event operations, networking activities, and community engagement with developers and blockchain professionals.

- Recognized as Student of the **Week at Women Techmakers Addis** for outstanding contribution and creativity in UI/UX design during community learning activities.
