PROFESSIONAL EXPERIENCE

- Software Engineer (MERN & DevOps) — INSA, Addis Ababa
- Built secure MERN apps
- Set up AWS CI/CD workflows
- Frontend Developer — DEBO PLC, Jimma
- Built React UI components
- Improved web performance

EDUCATION & CERTIFICATIONS

- B.Sc. in Software Engineering | Jimma University, Ethiopia.
- DevOps Fellowship | Women Techsters (In Progress).
- AI Programming & Data Science Specializations | Udacity.
- UI/UX Design Certification | HUCISA (Awarded "Student of the Week").
- Fundamentals of DevOps on AWS | Simplilearn / INSA.
- Attendance Hashgraph Developer | Hedera/Hashgraph.

LEADERSHIP & ACTIVITIES

- Volunteer — Ethiopian Blockchain Week
- Handled networking and tech support
- Hackathon Participant — Redefine Possible (IWD 2025)
- Developed social-impact team project

PROFILE

Award-winning Software Engineering Graduate from Jimma University with 15+ months of experience in secure, cloud-integrated systems. Top-3 Winner of the 2025 African Blockchain Championship and 3rd Place Winner at the Addis AI Set Hackathon. Proven track record in delivering high-impact solutions, from Safaricom's ProLog system to national security projects at INSA. Active community leader and blockchain advocate, dedicated to bridging the gap between technical resilience and human-centric design.

CORE COMPETENCIES

Engineering: Full-Stack MERN (MongoDB, Express, React, Node.js), UI/UX Design (Award-winning).
Ops & Cloud: AWS Cloud, CI/CD, Docker, Kubernetes, Network Security.
Emerging Tech: AI & Data Science (Udacity), Blockchain (Cardano Track Winner).

KEY PROJECTS & HACKATHONS

Safaricom Talent Cloud Capstone — ProLog System
- Built product & logistics MVP in 6 weeks with Safaricom PLC, Gebeya Inc., and JICA

Addis AI Set Hackathon — 3rd Place
- Developed AI solution for community-focused challenges

African Blockchain Championship 2025 — Top 3 (Cardano Track)
- Co-built decentralized transparency solution on Cardano

PROFESSIONAL EXPERIENCE

Software Engineer (MERN & DevOps) | Information Network Security Administration, Addis Ababa — 6 mo
- Built secure MERN apps and AWS DevOps pipelines (Amazon Web Services)

Frontend Developer | DEBO PLC, Jimma — 4 mo
- Developed high-performance React UI
